

2009 IBB Immunobiology Forum

T cell Biology, Antigen Presentation & The Innate Immune System

You are cordially invited to the 2009 IBB Immunobiology Forum, hosted and organized by the three new IBB faculty members, Prof. Jonathan Sprent, Charlie Surh and You-Me Kim.

Reflecting the special interests of the faculty members, the forum will focus on T cell biology, antigen presentation and the innate immune system.

Each meeting will begin with a short introduction by one of the faculty members on a particular immunological problem and be followed by presentation and discussion of a paper dealing with the selected topic.

The forum will be directed mainly at graduate students - though everyone interested in immunobiology will also be welcome - and the organizers are hoping for a spirited discussion and lively interchange of ideas.

● Schedule

DATE	TIME	SPEAKER
October 8 (Thurs.)	4:00PM	Prof. You-Me Kim
October 22 (Thurs.)	4:00PM	Prof. Jonathan Sprent
November 5 (Thurs.)	4:00PM	Prof. Charlie Surh
November 19 (Thurs.)	4:00PM	Prof. Jonathan Sprent
December 3 (Thurs.)	4:00PM	Prof. Charlie Surh

* All presentations will be given in English.

- **Place** Conference Room, PBC
- **Organization** Prof. Jonathan Sprent, Charlie Surh and You-Me Kim
- **Support** Division of Integrative Biosciences and Biotechnology
